

# Heavy Equipment MECHANIC

**WE'RE  
HIRING!**

## Great Lakes Mineral

Valley View Quarry | Valley View Concrete

We are seeking a diligent Heavy Equipment Mechanic. Successful applicants must be self-motivated, possess a strong safety minded attitude and be a good team player. Regular job duties include the maintenance and repair of mechanical, electrical, hydraulic, and diesel systems on a variety of heavy equipment. You will be responsible for service documentation, ordering parts as necessary, maintaining assigned shop equipment, and assisting field technicians with equipment maintenance.

### Heavy Equipment Mechanic Responsibilities include:

- ✓ Daily maintenance of heavy equipment including excavators, dozers, front end loaders, articulated haul trucks, and water trucks.
- ✓ Daily maintenance of tractor trucks, Redi-Mix concrete trucks, and other miscellaneous equipment
- ✓ Assist in the daily operations and maintenance of the plant, quarry and various aggregate sources, and associated equipment as directed
- ✓ Other duties may be assigned as needed

### Preferred Candidates will possess the following attributes:

- ✓ Previous experience in maintaining and repairing heavy equipment
- ✓ Experience as a Diesel Mechanic, Heavy Equipment Mechanic or similar position
- ✓ Excellent mechanical aptitude
- ✓ Knowledge of surface mining and sand production, practices and applications
- ✓ Knowledge of workplace safety practices
- ✓ Strong leadership abilities
- ✓ Good time management and problem-solving skills.
- ✓ A great understanding of work optimization techniques.
- ✓ Good knowledge of the applicable safety regulations and procedures.
- ✓ Valid driver's license is required
- ✓ Ability to pass pre-employment process, including drug screen.

### Working Conditions:

- ✓ This is a normal, full-time daytime shift job; however the willingness and ability to work flexible shifts including nights, weekends, early mornings, overtime, and some out-of-town work is recommended.
- ✓ Work outdoors with exposure to heat and cold and other outdoor environmental conditions
- ✓ Operate equipment, tools, and controls, performing repetitive movements with hands, wrists and feet
- ✓ Frequent reaching, climbing, stooping, kneeling, crouching, sitting, and heavy lifting
